KC/Lumber is ideal for use in all outdoor situations such as parks, pub gardens, caravan parks, sports centres, nature reserves etc. These recycled plastic profiles will never rot, so they are ideal for any conditions including the wettest marshlands and can even be fully submerged. We have literally hundreds of different profiles available, so please do not hesitate to contact us regarding your requirements and we will be happy to advise on the best profile or grade for your project.

Kacey also supply planters, decking, fencing, permeable paving systems and many other products from recycled plastic. Visit our website for more information.

### Border edging

50 x 260 x 2500mm

Available in brown & grey

Our board, post and sleeper profiles are ideal for use alongside our KC/Deck range for the construction of boardwalks, fishing pegs, viewing platforms etc. You can also use these profiles for path edging, step risers, retaining walls plus almost anything that you would normally use timber for.

Manufactured from 100% high quality recycled mixed waste plastics from post industrial and consumer use and, where necessary, selected process additives. Sourced in the UK and Europe.

**Production process:** The polymers are blended and fed under controlled temperatures and pressures into moulds.

**Finish:** The surface is knot free, evenly coloured and has a textured finish.

Made from 100% UK recycled plastic | Environmentally responsible | 100% recyclable.

Rectangular palisade

Ogee palisades - Plains, North Lanarkshire

Sleeper profiles

Dundee Law Step Risers

All of our products are made from waste plastics that would otherwise be destined for landfill. They contain no unpleasant chemicals, are leach free and safe to use in any environment.

Like wood they can be drilled and sawn, but unlike wood they will not rot and require no treatment with preservatives or any other maintenance during a lifetime of at least 50 years.

If you would like advice on fixings or how to best use our recycled plastic lumber profiles for your project please feel free to contact us.
